

WE CARRY A VARIETY OF STYLES AND COLORS FOR EVERY HOME FOR GAS FIREPLACES

SOME EXAMPLES

White Mountain Hearth - Direct-Vent Gas Fireplace Insert

The Innsbrook direct-vent insert is available in three sizes - small, medium, and large - to fit almost all wood burning fireplaces. It comes with slope glaze burners that produce a natural looking flame. It also comes with a built in variable speed blower to circulate the heat.

Regency Liberty Direct-Vent Gas Fireplace Insert

The Regency Liberty has one of the most realistic logs available as an insert. The flames and glowing embers make it look like a real wood fire. The Liberty comes with a variable speed blower and remote control. This insert is high efficiency and operates without electricity.

American Hearth Madison Luxury Direct-Vent Fireplace

The Luxury Series has a ceramic glass to better transfer heat. It comes with a blower and 13 piece log set to produce a larger flame. The larger flame produces more heat. This insert also comes with a dimmer controlled accent light inside the fireplace.

DRIFTWOOD

CONTEMPORARY FEEL

3 SIZES
18" - 20"

Driftwood is full of personality and character with wonderful twists and turns that complement its unique texture. This vented log set has a contemporary feel that will suit many rooms styles. Beauty and distinction define the striking appearance of Driftwood.

- Modern look and feel
- See-Thru models available
- Natural gas and liquid propane applications

MOUNTAIN TIMBER

DISTINCTLY HIGH-COUNTRY

8 SIZES
21" - 60"

Mountain Timber's unique point scheme and gnarled log shapes create a distinct likeness of high country timber. Utilizing a new point process and our time-tested craftsmanship, Mountain Timber has crisp, incredibly fine detail on its massive, rounded logs, and was created to fit our standard burners for smaller applications, or the deeper Ember Supreme burner system for larger fireplaces. Bring the endless wonder of the mountains to warm your home.

- Premium series
- Massive sets designed for larger fireplaces
- Natural gas and liquid propane applications

MOUNTAIN ASPEN

REFRESHING & MELLOW

3 SIZES
18" - 30"

Mountain Aspen is a refreshing look at a beautiful timber. The vented log set's lovely and highly detailed logs have full bark texture on one side, and on the other, split heartwood. They can be stacked showing either side, allowing you to create the look of newly cut firewood, mellowed split logs, or a striking combination of both.

- Reversible logs
- Aspen and split texture
- See-Thru models available
- Natural gas and liquid propane applications
